## PREFACE.

This little Booklet is issued for the purpose of illustrating a few executed examples of cast and wrought leadwork, giving various sizes and relative prices as some form of guidance for those desiring information on the subject.

All prices quoted include delivery to nearest station.

The author is desirous upon every occasion, where possible, of varying his work to suit the particular circumstances attending each case.

In addition to the execution of this decorative work, the author desires to inform Architects that he has recast and relaid the old lead upon several fine old church roofs—under the direction of the Society for the Protection of Ancient Buildings—and that he is prepared to undertake any work of this nature UPON THE SITE, relaying the old lead practically in its original position.

GEO. P. BANKART.
